Notes to the Condensed Interim Consolidated Financial Statements

For the six months ended May 31, 2014

(Unaudited - Expressed in Canadian dollars)

1. Nature of Operations

Search Minerals Inc. (the "Company") was incorporated under the provisions of the Business Corporation Act (British Columbia) on June 7, 2006. On May 3, 2007, the Company commenced trading on the TSX Venture Exchange (the "TSX-V") under the trading symbol "SMY.V". The Company is in the business of mineral exploration involving acquiring, exploring and evaluating mineral resource properties. At May 31, 2014, the Company was in the exploration and evaluation stage and had properties located in Canada. The Company's corporate head office is located at 155 University Avenue, Suite 1240, Toronto, Ontario Canada.

The Company is currently exploring its mineral properties and has not yet determined whether the properties contain mineral reserves that are economically recoverable. The amounts shown as mineral properties represent costs incurred to date, less amounts recovered from third parties and/or written-down, and do not necessarily represent current or future fair values.

2. Going Concern

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the foreseeable future. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material. At May 31, 2014, the Company had not yet achieved profitable operations, had a working capital deficiency of \$1,573,085, had an accumulated deficit of \$14,953,635 since inception and expects to incur further losses in the development of its business. Management is in the process of obtaining additional resources and believes sufficient resources will be available as required. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. The above factors may cast significant doubt upon the Company's ability to continue as a going concern and, therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

3. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 - Interim Financial Reporting. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended November 30, 2013 which have been prepared in accordance with IFRS as issued by the IASB.

In the preparation of these condensed interim consolidated financial statements, the Company has used the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended November 30, 2013 except as outlined in Note 4.

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Unless otherwise stated, all dollar amounts are in Canadian dollars.

4. Changes In Accounting Policies Including Initial Adoption

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting periods beginning before or on January 1, 2013.

The following new standards, amendments and interpretations that have been adopted for the Company's current fiscal year have not had a material impact on the Company:

- IFRS 10 Consolidated Financial Statements+
- IFRS 11 Joint Arrangements+
- IFRS 12 Disclosure of Interests in Other Entities+
- IFRS 13 Fair Value Measurement+
- IAS 1 Presentation of Financial Statements+amendments

5. Staking Deposits

Staking security deposits are refundable if certain exploration expenditure criteria specified in the Mineral Act of the Province of Newfoundland and Labrador are met. Until such time as the Company makes application to have the deposits refunded, they will be classified as a non-current asset.

The Company has refundable deposits with the Governments of Newfoundland and Labrador as follows:

	Total \$
Balance, November 30, 2012	73,915
Additions	18,050
Recoveries	(1,900)
Balance, November 30, 2013	90,065
Recoveries	(17,275)
Balance, May 31, 2014	72,790

6. Mineral Properties – Schedule 1

Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee a clear title. Property title may be subject to unregistered prior agreements and regulatory requirements. The Company is not aware of any disputed claims of title.

The Company acquired the mineral properties primarily by staking the claims. In order to maintain title to the claims, the Company must incur minimum exploration expenditures per claim as specified by the Mineral Act of the Province of Newfoundland and Labrador. In lieu of incurring the minimum expenditures, the Company may make security deposits with the Government of Newfoundland and Labrador (Note 5). Other commitments relating to mineral properties are as follows:

Port Hope Simpson REE District, Labrador

Fox Harbour Property

On January 13, 2011, the Company entered into a binding letter of intent (the %LOI+) with Andrew Quinlan, Roland Quinlan and Tony Quinlan (the %Vendors+). Pursuant to the LOI, the Company has the option to earn an undivided 100% interest in and to certain claims owned by the Vendors known as the Fox Harbour Claims (the %Fox Harbour Property+). The Fox Harbour Property is comprised of three licenses totaling 48 claims located east of St. Lewis, Labrador.

Under the terms of the LOI, the Company may earn the undivided 100% interest in Fox Harbour Property by making aggregate cash payments of \$90,000 and issue an aggregate of 300,000 common shares of the Company over a period of four years as follows:

- pay \$10,000 (paid) and issue 30,000 common shares on or before February 25, 2011 (issued at the fair value of \$13,500);

- and,
- pay \$15,000 and issue 50,000 common shares on or before February 25, 2015 or, at the sole discretion of the Company, pay \$100,000.

The Vendors were granted a 1.5% net smelter return royalty. The Company may, at any time, purchase 1% of the net smelter return royalty for \$1,000,000.
