

## NEWS RELEASE

### SEARCH MINERALS INC. CLOSES CONVERTIBLE DEBENTURE FINANCING

**Vancouver, B.C. December 29, 2016 – (TSXV: SMY) Search Minerals Inc.** (“**Search**” or the “**Company**”) is pleased to announce that it has closed its previously announced non-brokered unsecured convertible debenture (the “**Debenture**”) private placement (the “**Private Placement**”) in the amount of \$120,750.00. The Debenture will bear simple interest at a rate of 10% per annum, calculated and paid quarterly in arrears, and will have a maturity date of one year from the date of issue.

The Debenture will be convertible into units (“**Units**”) at a conversion price of \$0.07 per Unit all in accordance with the terms set forth in the certificate representing the Debenture. Each Unit will be comprised of one common share of the Company (a “**Share**”) and one common share purchase warrant (a “**Warrant**”). Each Warrant will entitle the holder thereof to acquire one Share (a “**Warrant Share**”) at an exercise price of \$0.14 per Warrant Share for one year from the date of conversion of the Debenture.

The securities issued in connection with the Private Placement will be subject to a four-month hold period, in accordance with applicable securities laws. No finder’s fees or commissions are payable in connection with the financing.

#### **About Search Minerals Inc.**

Led by a proven management team and board of directors, Search is focused on finding and developing resources within the emerging Port Hope Simpson Critical Rare Earth Element (CREE) District of SE Labrador. The Company controls a belt 70 km long and 8 km wide including its 100% interest in the FOXTROT Project which is road accessible and at tidewater. Exploration efforts have advanced “Deepwater Fox” and “Fox Meadow” as significant new CREE prospects very similar and in close proximity to the FOXTROT discovery. While the Company has identified more than 20 other prospects in the District, its primary objective remains development of FOXTROT by confirming proprietary direct extraction metallurgy processing technology at the pilot plant level (in progress) and delineation of prospects that will ensure competitive-low cost production beyond the 14-year mine life contemplated in the preliminary economic assessment of FOXTROT completed in April 2016. The FOXTROT Project has a low capital cost to bring the initial project into production (\$152 M), a short payback period, and is scalable due to Search’s proprietary processing technology.

All material information on the Company may be found on its website at [www.searchminerals.ca](http://www.searchminerals.ca) and on SEDAR at [www.sedar.com](http://www.sedar.com)

#### **About CREEs**

Identified as Neodymium (Nd), Europium (Eu), Terbium (Tb), Dysprosium (Dy) and Yttrium (Y) this valuable subset of the complete series of seventeen rare earth elements is considered critical due to high demand and/or constrained domestic supply. Containing unique properties which enhance the performance of a range of innovative technologies, CREEs are essential components in the development of permanent magnets and a variety of other components used in renewable energy, green technology automobiles, medical devices, electronics and agricultural production.

**Cautionary Statement Regarding “Forward-Looking” Information.**

*This news release includes certain forward-looking information” and forward-looking statements” (collectively forward-looking statements”) within the meaning of applicable Canadian and United States securities legislation including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein, without limitation, statements relating the future operating or financial performance of the Company, are forward-looking statements.*

*Forward-looking statements are frequently, but not always, identified by words such as “expects”, “anticipates”, “believes”, “intends”, “estimates”, “potential”, “possible”, and similar expressions, or statements that events, conditions, or results “will”, “may”, “could”, or “should” occur or be achieved. Forward-looking statements in this news release relate to, among other things future events or the Company’s future performance, business prospects or opportunities. Actual future results may differ materially. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable by the respective parties, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements and the parties have made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation, general business, economic and social uncertainties; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; and those additional risks set out in Search’s public documents filed on SEDAR at [www.sedar.com](http://www.sedar.com). Although Search believes that the assumptions and factors used in preparing the forward-looking statements are reasonable, undue reliance should not be placed on these statements, which only apply as of the date of this news release and no assurance can be given that such events will occur in the disclosed time frames or at all. Except where required by law, Search disclaims any intention or obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.*
